LEGION POST PRE- TS FLAG TO TOWN — Mundt- Post No. 81, American Legion, a new American flag to of Bethel recently to be at the Common. Post Adju- Maurice Bouchard, is shown the flag to Town Mana- Dickey. Post Comman- der Charles Farrar was not available for the presentation.

COMMENTS FROM THE OFFICE OF THE TOWN MANAGER

We are very pleased with the flag presented to us by the local Legion Post. Arrangements have been made to display it on the common. Investigation will be made as to the possibility of installing a light in order that we be able to leave it up at night.

Plans are being made to expend the T. R. I. funds on Bird Hill this year. We have found the road off Paradise leading to the Peter Grover place was laid out originally as a private road. We had planned to build it but the new information regarding the layout prevents us from spending town funds there.

There has to be approximately 20 new manholes installed at various locations throughout the village. The digging now in progress is being done to locate the lines. When the contractor is ready he will return to these same places to install the manholes. There is so little information available as to the location of the existing lines the finding of them, in some places, will be about as time consuming as installing the manholes.

LABOR DEPT. FIGURES SAY C. P. I. UP .2% IN JUNE

The Consumer Price Index rose 0.2% in June to 125.0 (1967=100), the Department of Labor's Bureau of Labor Statistics reports. The increase was due chiefly to higher prices for meats, fresh fruits and vegetables, used cars, homes, and household services. The June index was 2.9% above a year ago, the first time since November 1967 that the change for a 12-month period was less than 3%.

After seasonal adjustment, the June increase was 0.1%. The annual rate of change for the calendar quarter ending in June was 2.2%, which was less than the 3.6% rate for the preceding quarter. The slowdown was primarily due to the behavior of the food component of the index, which was unchanged from March to June after advancing at a 7.2% annual rate from December to March. In June, the food index, which includes both food purchased in grocery stores and restaurant meals, increased 0.2% after sea-

S. A. D. 44 DIRECTORS AUTHORIZE SECOND GRID ASSISTANT AT TELSTAR

Meeting in special session at Telstar Regional High School on Monday evening of this week, the board of directors of School Administrative District 44 authorized a second assistant football coach at Telstar Regional High School. Reportedly the added position is necessary to provide supervision and instruction to participants in the grid sport who are not members of the varsity squad. Supt. Basil Kinney, Telstar Principal Brian Flynn and Tim LaVallee, Telstar athletic director, were authorized to select the person to fill the added assistant coach slot.

The board approved the employment for the 1972-73 school year of two teacher-aides at district expense. Mrs. Maryvonne Wheeler is to continue as aide in the Telstar Art Department and Mrs. Margaret Record as aid at the Ethel Bisbee School.

The resignation of S. Bruce Brown as remedial reading instructor at Crescent Park School was accepted. Mr. Brown has accepted a teaching position in the Portland area. The board approved the transfer of Mrs. Mabel Kennett from grade III at Crescent Park School to the remedial reading position.

The directors approved the nomination of Mrs. Kathleen McCluskey to teach grade II at the Ethel Bisbee School. Mrs. McCluskey is a 1968 graduate of Farmington State College, with a B. S. in elementary education. She has four years of teaching experience in Quincy and Marblehead, Mass.

Willis Spaulding was approved as a guidance counselor at Telstar. Married with five children, Mr. Spaulding holds a Certificate of Advanced Study from the University of Maine in Orono. He has seven years of experience in education: one year as a high school teacher; three years as Dean of Students at Ricker College, Houlton; and three years as Dean of Students at Aurora (Ill.) College. Raymond Parkin of South Berwick, who was approved for this post at the July 18 meeting of the board, declined the position.

The board authorized and empowered Supt. Kinney to employ personnel to fill vacancies that may exist prior to the opening of school in September.

The directors appointed Dr. Loy Harrell to serve as school physician for the 1972-73 school year.

In other action the board approved tentative agreements pertaining to "Benefits for Custodians and Bus Drivers" in both the 52-week and 36 to 40 week categories.

Board members absent Monday evening were: Leon Akers, Andover; William Cousins and Dan Mancon, Bethel; and Bernard Brooks, Greenwood.

The next regular meeting of the S A D 44 board is scheduled to be held at T R H S on Monday evening, Aug. 21.

HISTORICAL SOCIETY TO SPONSOR 2nd ANNUAL HOMECOMING DAY, SEPT. 30

On Saturday, Sept. 30, the Bethel Historical Society will celebrate its 2nd Annual Homecoming Day. In conjunction with this celebration the 470 Railroad Club of Portland will run an excursion train on the Grand Trunk Railway, from Portland to Bethel.

The Bethel Historical Society with the co-operation of the Bethel Chamber of Commerce expect to make this a big day for the area. All organizations and business firms in the Bethel area are urged to join in this celebration, by having booths and display tables up and down Main Street and on the Common. Each organization is to pick their own location and make arrangements with the owners of location sites.

This will be a chance to meet old friends and make new ones, as the excursion train will arrive in Bethel about 1:15 p. m. and remain here for about three hours. There will probably be around 300 to 400 passengers on this train. A good chance to show off our town and area to these people.

Anybody interested in a booth or display may obtain further information by calling any member of the celebration committee: Steve Wight, 824-2410; Barbara Merrill, 824-2557; Burnie Merrill, 824-2174; Elizabeth M. Carter, 836-2313, or Ed Quinn, 836-2674.

your week ahead

BY DR. A.W. DAMIS

Forecast Period August 6 - August 13, 1972

ARIES Mar. 21 - Apr. 19
Problems and intrigues are developing near your home or place of employment. Your chart warns against any attempt, on your part, to arbitrate or play the role of a mediator.

TAURUS Apr. 20 - May 20
The danger of improper communications casts a shadow over your chart. Guard gesture and word when speaking to a member of the opposite sex. Apparently, your motives will be misread.

GEMINI May 21 - June 20
Good fortune often takes strange avenues. So, don't become disturbed by a delay or minor reversal; the event will be a catalyst for material gains, in the long haul.

MOONCHILD June 21 - July 22
Talent or training that you have put aside, will come into play this week. According to stellar patterns you make up for lost time and effort. Oh yes! There's an additional source of income for some Moonchildren.

LEO July 23 - Aug. 22
For the want of better words, let's put it this way: You are inclined to put a member of the opposite sex to test. It seems as though you are entering a phase when your inferiority complex must be nourished.

VIRGO Aug. 23 - Sept. 22
The planet Neptune's movement should lift some of the gloom and delusion that has clouded your home base. Taking an objective look at your surroundings is indicated.

LIBRA Sept. 23 - Oct. 22
During this cosmic cycle you'll try to put the pieces together concerning the difference of opinion that has existed between you and a member of the opposite sex.

SCORPIO Oct. 23 - Nov. 21
Avoid the strange and unusual. Temptations or the desire for bizarre social activities that will result in incalculable consequences, haunt many members of your sign.

SAGITTARIUS Nov. 22 - Dec. 21
Watch it! Planetary configurations indicate that you might become too ambitious. Your chart shows the possibility of stepping on someone's toes - in order to get ahead.

CAPRICORN Dec. 22 - Jan. 19
The planet Mars now moves into a favorable position for most members of your sign. So, you should receive word, in one form or another, that will brighten your future.

AQUARIUS Jan. 20 - Feb. 18
For reasons that you will never understand, associates and persons in authority will be working in your behalf - behind the scenes. Incidentally, curb the tendency to pass the buck.

PISCES Feb. 19 - Mar. 20
Whether or not the situation will develop, this happens to be an ideal period to form a partnership. Joining an association, group, society or organization is highly recommended, now.

COURSE IN FLY-TYING TO BE OFFERED BY C. E. D. AT U. M. F. THIS FALL

A 28 hour, comprehensive course in the art of fly tying will be offered by the University of Maine at Farmington this fall as part of the Continuing Education Division.

The 14-week course, which begins on Sept. 13 and runs through Dec. 20, will cover virtually all phases of fly tying from the simple wooly worm fly to the more intricate and detailed patterns of dry flies.

Ted Foster, local sportsman and professional fly tyer and tying instructor, will instruct the course. Foster has been engaged in fly tying as a professional level for over 20 years. During the course of his career he has tied flies for some of the better known tackle houses in the country including the Orvis Co. of Manchester, Vt., Abercrombie and Fitch and Wm. Mills and Son of New York, and L. L. Bean of Freeport, Maine recently Foster collaborated with author Joseph Bates, Jr. of Longmeadow, Mass., compiling information on Atlantic Salmon flies for Bates' publication "Atlantic Salmon Flies and Fishing."

The course will be limited to 15 students per section, with a maximum of three sections per week. Classes will be held in the art room in the basement of Merrill Hall on the UMF campus. Those persons wishing to take the non-credit course are requested to register as early as possible so that materials and supplies can be ordered in advance of the first class. Detailed information covering fees and additional charges is available from Dr. Harland C. Abbott, director of the Continuing Education Division, University of Maine at Farmington, Farmington, Maine 04938.

Mr. and Mrs. Donald Walker were camping at Aldus Campground in Searsmont on the week end.

COMMENT

an editorial

Not So Sophisticated . . .

The action of the Democratic presidential candidate in dumping his hand-picked running mate this week has exploded one fallacy that political moderates have suspected for a long time: that prejudice was practiced only by "conservatives", as many placard carrying "liberals" have been expounding for years.

Quite possibly Sen. Eagleton should have informed the presidential candidate that he had received treatment for mental depression caused by overwork a decade ago, but a lack of thoroughness in "backgrounding" by the McGovern staff would appear to be also at fault. When a person has received treatment in these type of cases he frequently is better able to recognize his own physical and mental limits and guard against a recurrence of the problem than those who are "too proud" to seek professional help. The inference that a person who has received treatment for a mental disorder is automatically a "second class" citizen incapable of difficult decisions should be laid to rest with the "pest houses" of a bygone era.

Another facet of the Sen. Eagleton withdrawal would be the apparent double standard involved. The junior senator from Missouri was at best the second choice for the vice presidential slot in the ticket, and one of the reasons advanced for his removal was concern over how he would respond to the pressures of the presidency if he were thrust into the job. It does seem inconsistent that the man who reportedly was the initial number one choice for the vice presidential nomination, has his own ability to react under pressure forever clouded by an incident at a bridge on Chappaquiddick.

Nothing should be deduced from the above comparison except that one is a mere possibility of what "might happen" and the other apparently did occur. The parallel is suggested only to point up the inconsistent "establishment" politics being waged by amateurs. If it was bungled by old guard politicians then the presidential nominee is not master of his own house.

What the whole Eagleton affair really illustrates is that politicians are not really so sophisticated as they would like to appear. Quite possibly the electorate is more advanced in their social attitudes and discerning than they have been given credit for lately.

The end result of the whole situation might be that many who have been dissatisfied with the present administration and had been considering alternatives will remember Hamlet's words by Shakespeare, and "bear those ills we have, than fly to others that we know not of."

LETTER TO THE EDITOR

Editor, Citizen
Sir,

"Beautiful Bethel, how could you leave it?" the Maitre d'Hotel of Shawmut Inn in Kennebunk Port asked me. This was a charming tribute to our lovely town, and perhaps we should reciprocate the compliment by publishing the letter of an enthusiastic visitor to their town:—

Editor
Your County Coast Star:

Will you be good enough to open the column of your esteemed paper to:

VIVAT KENNEBUNK PORT, VIVAT ITS STRETCHES OF GREEN—NOT imprisoned in dangerous, ugly, unnecessary and costly kerbs — VIVAT the beautiful, manicured lawns of Nonantum Hotel serving as parking lots for the cars of its guests. And VIVAT the generous, luscious green areas surrounding private houses, coming up to the very steps of the house, and harboring the cars of its owners!

This is beautiful! and if this letter is printed and reprinted, Kennebunk Port will be instrumental in dispelling the old myth, clung to by certain groups of people in this country, that one cannot possibly park on grass, and who would transform the whole beautiful land into one huge parking black-top!

And the beautiful people I encountered on my first day here!

Having gone down to the "SHACK", I heard two men haggling: it was over an eight-pound fish the fisherman had caught and was handing to Samuel.

"Nothing, this is a gift to you."

Arguing went on for some time. Finally, Sam, with indignation:

"If you don't take money for this eight-pound fish, I will never accept any fish from you ever," and handed him two dollars.

The man accepted one dollar and returned the other. This kind of bargaining is not very common, nowadays. Is it?

Next. Having enjoyed the lobster roll, the breeze and the noble transaction, I decided to walk the four miles home!

It was midday and rather warm when I was on my last stretch, I stopped at a house where a young man was mowing his lawn, and asked him whether I was still far from my destination. He seemed to have noticed my exhaustion and, not very convincingly, assured me that it was not very far. As I trudged on, a small car stopped beside me, and a sweet young girl asked whether I was going to the Nonantum Hotel.

"Then hop in, I will take you there."

"That is lovely, but how on earth did you know that I was going there?"

Her husband whom I had approached had gone in and told her and I assumed that she happened to be going in the same direction. But no, having deposited me, she promptly turned around and went back home!

There seems to be a connection between beautiful surroundings and beautiful people! So now we know how to eliminate crime from our ugly cities.

Sincerely,
(Mrs.) Bronislawa Y. Noyl
Kennebunk Port

"TO RUSSIA WITH LOVE" AT NAZARENE CHURCH, AUG. 5

The new 35-minute full color motion picture, "To Russia With Love," is an Underground Evangelism production. It graphically portrays life for many thousands of Christians in communist lands today. Many of the shots were filmed inside Russia and give eloquent testimony to the fact that hunger for the Word of God is very real in that land of multiple closed churches.

The public is cordially invited to view this exciting and informative film to be shown at The Church of the Nazarene, Bethel, Aug. 5, at 7 p. m. There is no admission charge.

Rev. L. Joe Bass, director of the missionary organization Underground Evangelism, says, "The film was one of the most difficult projects we have ever undertaken. In our first attempt to put it together we ran into a number of problems. The second was highly successful, and today we are justifiably proud of the picture. Premiere performances across the nation have resulted in a high degree of interest among viewing audiences and much praise from critics."

Mr. Bass adds: "We sent a professional photographer with maximum equipment, into Russia to get the necessary shots. For the sake of much professional camera equipment would be enough to put the KGB on a foreign photographer's trail 24 hours of each day. He was able to lose himself among the crowd of tourists and go on his way unchallenged and unmolested. The result was some of the finest behind-the-scenes shots we have ever seen."

Secret arrangements had been made in advance to have an English-speaking Russian Christian rendevous with our photographer. The two met quietly at the appointed hour, and for the next few weeks U-E's cameraman had a revealing insight glimpse of the underground church at worship. He found himself deeply moved by what he saw . . . the closed churches . . . the status of Christians living under Communism. The film "To Russia with Love" faithfully records all this.

Shown also is Underground Evangelism's Bible press in western Europe where tens of thousands of pocket-sized "smuggling" Bibles and a great variety of other Christian literature are printed for distribution behind the Iron Curtain.

An actual border crossing is also shown in the film which helps portray Underground Evangelism's wide-scale Bible-smuggling industry.

Narrator is Pastor Stephan Bachurov, a young man who recently escaped from behind the Curtain with his wife and two children.

C. P. I. Up .2% in June

sonal adjustment. In both April and May the index declined 0.1%. The nonfood commodities index showed no change in June after rising 0.5% in May. The services index increased 0.3%, compared with a 0.2% rise in May.

Comparative seasonally adjusted annual rate of change in the CPI for 1971 before the Economic Stabilization Program and since the Program began last August are as follows:

(1) 8 months prior to Phase I, Dec. 1970 to Aug. 1971; (2) Phase I, Aug. 1971 to Nov. 1971; (3) 7 months, Phase II, Nov. 1971 to June 1972; (4) 10 months, Phases I & II, Aug. 1971 to June 1972.

	(1)	(2)	(3)	(4)
All items	3.8	1.9	3.1	2.7
Food	5.0	1.7	4.0	3.3
Commodities less food	2.9	0	2.5	1.7
Services	4.6	3.1	3.6	3.4

Before seasonal adjustment, the index for food purchased in grocery stores rose 0.6%; the usual June increase is 0.4%. Retail prices of poultry, beef and pork rose sharply in June after declining for several months. Fresh vegetable prices rose countraseasonally as adverse weather conditions and the end of harvests in some areas curtailed supplies. The increase in fresh fruit prices was mostly due to seasonal declines to supplies and the introduction of watermelons for the first time this season. The price indexes for eggs, cereal and bakery products, and dairy products declined. The index for food away from home —restaurant meals and snacks—increased 0.4%.

The index for nonfood commodities increased 0.2% as it usually does in June. Used car prices continued to rise sharply, and home prices rose significantly. Higher taxes caused most of the increases in tobacco products prices. Smaller price increases occurred among textile housefurnishings, toilet goods, and reading materials. The effects of these increases were partly offset by sharper-than-usual decines in price of apparel and gasoline. Prices also decreased for alcoholic beverages, furniture, and new cars. The decline in new car prices, however, was considerably smaller than usual.

The index for services increased 0.3%, compared with 0.2% in May. The medical care index increased more in June than in May as physicians' fees rose 0.5%. The rise in charges for hospital services, however, continued to moderate. The June index for household services rose 0.3%, the same as in the last two months. Mortgage interest rates moved up for the first time since October. Home repair prices were higher. Charges for telephone and electricity also increased, but charges for residential gas service declined. In June, the index for transportation services rose slightly for the third consecutive month. Local transit, intercity bus, and taxi fares rose. Parking fees increased but much less than in May.

Approximately 120,000 individual prices were collected directly by the Bureau of Labor Statistics in June for use in the index. Approximately 80% of these quotations represent monthly comparisons. Seventy-four per cent of these monthly comparisons remained unchanged, 11% decreased, and 15% increased between May and June. The proportion of prices increasing, decreasing, and holding steady in June was about the same as in the previous month.

The June index also includes 24,000 price comparisons to June from periods prior to May, of which 19,000 cover the quarterly span from March to June. About 13% of these increased, a slightly lower proportion than in last month's index. In addition, a little more than 5,000 rental units were surveyed in June and about 20% of these reported rent increases from December. About 4% of the 5,000 reported increases between May and June.

INSTATE ADVISORY COMMITTEE TO DISCUSS PROJECT WOODCHIP IN BANGOR AUGUST 9

The Instate Advisory Committee for Project Woodchip will meet in Bangor, Wednesday, Aug. 9, with members of MacDonald Associates, Inc., to discuss a feasibility study aimed at establishing a fully integrated wood products manufacturing facility in Maine.

The meeting will be held at the offices of the Maine Forest Council in Auburn Hall on California Avenue, Bangor. Members of the news media interested in learning more about Project Woodchip are welcome to attend.

MacDonald Associates, a west coast consulting and engineering firm has been retained by the Maine Department of Commerce and Industry, sponsoring agency for Project Woodchip, to conduct the study. The study is being funded by a $30,000 grant from the Economic Development Administration.

The Woodchip study will consider four alterante locations as possible sites for a wood products manufacturing complex. The areas to be considered are: Aroostook County north of U. S. Route 2 and State Route 159, the Howland-Lincoln area of Penobscot County, Brownville Junction and Dover-Foxcroft area in Piscataquis County, and central Somerset County.

In addition to site location, the study will examine Maine's forest resources to ascertain both the availability of raw products and ways in which they can best be utilized. Particular emphasis will be placed upon those species and grades which are not being fully utilized at present. Product development, market demand, creation of employment opportunities and ecological considerations are among the aspects covered by the study.

LIVING- AS YOU LIKE IT

...and get more from the GOOD YEARS

By Francis Hugent

Happiness, someone once said, is a state of mind. What you have is not nearly so important as how you feel about having it.

A friend we knew long ago in the midwest writes to tell us he is living life as he likes it in a small town on the Gulf Coast.

He comments: "You write a lot about fixed incomes, part-time employment, and getting ready for the retirement years. It is my contention that people who have failed to find happiness during their working years, who were always trying to keep up with the Joneses, who hid their money in a mattress or ate beans for the sake of a big bank account, why, they just don't find things to be so different in retirement.

"I have no source of income other than social security. I don't get much steak, but I eat well. I have a roof over my head to keep the rain out—a nice, white-painted cottage. I bought it with money from the sale of my former paid-up home and had some left over.

"Each year I plant a vegetable garden. It keeps me busy. I have fresh vegetables to eat, give some away to neighbors, sell a little now and then to folks who know I have plenty. When I feel like doing so, I walk a couple blocks to the city park, where I can always find a checker or chess game. I keep up with Little League sports, with athletic teams representing city and county schools and a nearby college.

"I'm too busy to be bored, happy finding things to do; I just don't have time to consider that I would have life any other way."

As we noted earlier, happiness is a state of mind.

MAGALLOWAY

— Mrs. Bessie Harvey, Corres. —

Mr. and Mrs. Ellsworth Stuart of Gorham, Maine, are visiting Mrs. Helen Hart and took her to Otisfield, Sunday, where they attended church. They had a picnic lunch at Gorham on their way down and coming back a smorgasbord supper at South Paris.

Mrs. Bertha West is staying at her trailer and is feeling much better.

The Russell Bennett family of Rumford are coming this week to stay at the Azicoos House and his sister, Mrs. Millicent Haye, with her husband and small daughter of Washington will be there next week.

Mr. and Mrs. Philip Hinkley had a clam and corn bake at the Magalloway Town Hall Saturday evening which was very well attended.

Mrs. Hazel Harvey went to Hanover Monday morning for further treatment at the Mary Hitchcock Memorial Hospital.

The Hanson family of Windham, Maine, spent the week end at their log cabin in Magalloway.

Mrs. Hazel Harvey and small granddaughter, Donna, visited Mrs. Helen Camermon in Rangeley one day last week.

The funeral of Mrs. Adelaide Storey of North New Portland, who died in a Waterville hospital on Monday, July 24, was held at the Wilson's Mills Church Thursday and burial was in the Wilson's Mills cemetery.

Her husband Elwyn Storey, died Sunday, July 30, at the same hospital in Waterville. Services were held at the Wilsons Mills Church on Tuesday afternoon. He was the son of Robert and Bertha Bennett Storey and was born and raised in Wilson's Mills and spent many years of his life there. He was 80 years old.

e forest was fragrant and a tiny brook with a low murmur, a chuckle, and a whisper slipped under the foot bridge. All was so peaceful and serene.

The blue-gray of morning began to creep to the far corners of the woods. Then we came to "journey's end" where the dawn seemed to have thrown its light into the beginning of a glorious day. Here everything was a lush green and we waited for birds to appear. The field sparrow, and robin came and went. A towhee generously invited all of us to "drink-your-teee" but failed to show himself.

At my feet was the lovely little plant, the pyrola. With its delicate grace it was daintily captivating.

Time moves swiftly and in order to be on time for breakfast at seven we had to move on.

The pitcher-plant was the last "glory" of the woods. Even though I have seen them many times I'm still fascinated by their leaves. And though I have never found their blossoms rearing themselves by the hundreds in an open swamp, baring their beauty to the sunlight, I'll never forget the throb of delight which followed my first sight of the plant in a shaded bog, where its delicate tinted flowers nodded almost undetected under bending ferns.

Up the field path again we went now, where the bee-balm and salvia flashed suddenly upon us amid other lovely flowers. But with so few red flowers it gives a pleasant thrill of wonder and surprise. Our hostess knew so well how they enhance their beauty in an appropriate setting. They reminded me of the cardinal flower at home where its brilliant red is reflected from the water's edge with unequalled intensity —

"As if some wounded eagle's breast
Slow throbbing o'er the plain,
Had left its airy path impressed
In drops of scarlet rain."

Holmes

Now at the car the blue-bird appeared with the sky on its back and bade us a pleasant journey. We turned toward the blue space of the sky and the valley stretching to the long humped profiles of the mountains realizing that our trip had been made pleasant by our delightful hostesses who had so generously given their time.

ARE VETERANS AWARE OF THEIR TAX EXEMPTIONS?

What do war veterans know about their tax exemptions? Do they know that there are certain state taxes which some of them may be exempt from paying. These taxes are Poll Tax and up to $3700 exemption on property tax valuation. As with any benefit the veterans must be eligible and make application.

This state benefit does not apply only to veterans. It includes certain widows of veterans, paraplegic veterans, and widowed mothers of deceased veterans who are receiving benefits from the Veterans Administration as a result of the veterans service connected death.

Veterans who are at least 62 years old or are totally disabled are urged to visit their nearest State Veterans Services office. There are veterans counselors located in these offices ready to assist veterans and their families in filing for these tax exemptions and to give information on other benefits to which they may be eligible.

For further information contact the Bureau of Veterans Services office in your locality at Rumford Armory every Thursday from 10 a. m. to 1 p. m.
